PROFILE

I am 20 years old. I am highly motivated Python developer with a strong track record of independent learning. I consider myself quick learner with a passion for technology. I have gained strong Python and REST API development skills through online resources and personal projects.

EXPERIENCE

Mentor

Parvoz education

2023-2024
part-time

- I teach more than 50 students on basics of back-end development including HTML, CSS, Bootstrap and Python, Postgresql, Django, Django-Drf, Telegram-bot, fastapi - Demonstrating the effectiveness of the curriculum and teaching style, 70% full-time employment of graduates has been achieved.

Backend developer

Sofuna

2023-2024
part-time

- Designed and implemented a custom CRM system using Django DRF, streamlining workflows and systematizing nearly 85% of the furniture manufacturer's operations.
- Developed a detailed role-based access control (RBAC) system using JWT for secure logins and permissions within the CRM(admin, chief, guard, worker)
